

Thank you for hearing me today. I was recently made aware of a proposal to expand Low Power FM service. My family and I have been enjoying a station at 90.7FM, K-LOVE. This station is family friendly and an asset to our community. The broadcasts are intelligent and informed while still appropriate for our children to hear. The music is positive and encouraging, something our country needs right now. It's national focus supports unity. Our family feels strongly enough that we support K-LOVE financially.
